In 2030:

• The world will be more populated and more persons will be older than at any other time in Trinidad and Tobago’s history. Also, there is a declining share of school-age (1-14) children.

• Access to sufficient quality and quantities of food and water will be a major global challenge due to population growth, wasteful practices, climate change and mass migration.

• Fossils fuels will peak and solar will surpass coal, oil and gas.

• More streets, homes, vessels and planes will be smart and powered by alternative sources of energy, such as solar.

• Artificial intelligence will replace some jobs.

• Due to rapid changes in technology, job titles such as Human Organ Engineer, Climate Change Reversal Specialist and Memory Augmentation Surgeon will be in vogue.
The Challenges

National Challenges

- Culture of dependency and sense of entitlement
- Low productivity and poor work ethic
- A Divided Society
- Crime and Criminality
- Ageing Population and Immigration
- Weak Institutions
- Climate Change and Natural Resource Management
- Dependence on the Energy Sector
- Food Security and Sustainability
- Rapid advances in technology
Trinidad and Tobago’s National Vision to 2030 and Strategy

• By 2030, Trinidad and Tobago will be able to sustain its own development and provide a high quality of life for all its citizens for generations to come.

• The National Vision identifies the outcomes for the country to 2030.

• Overall, the Draft National Development Strategy (Vision 2030):
  • Provides the framework within which strategies and implementation plans can be developed.
  • Presents the broad priorities and the target time periods to achieve them.
  • Provides for an orderly long term development process, inclusive of the United Nations (UN) Sustainable Development Goals (SDGs).
### Vision 2030 Themes and Outcomes

**Vision 2030: What do we desire to see?**

Key Transformation Activities

Key transformation activities are recommended in the following three (3) areas:

• **Culture:**
  - Values, Attitudes and Behaviours (VABs) based on culturally progressive and non-progressive factors

• **Institutions:**
  - Improving Independent Oversight
  - Modernising Public Sector Institutions

• **Macro-economic Policy:**
  - Fiscal and Incomes Policies
THANK YOU
